Athabasca University Press

Decline is inherent to the dying process in most diseases and most hospice staff are attuned to documenting the slightest signs. But decline is also associated with chronic conditions and advanced age. In denial statements, reviewers often state there is evidence of decline, but deny the claim because terminal status is not established.

5 | Page Hospice Eligibility Documentation Tips and Strategies 2 Document Evidence of Decline for Related Diagnoses: Documentation must communicate evidence of decline by focusing on problems the patient/caregiver is having. Assess all body systems and treat the patient holistically

The Hospice Nurse needs to document a baseline ADL at the time of admission and then with each nursing visit. Point out any changes in ability of the patient to manage ADL's. This is also a very good indicator of decline. When a nurse is admitting any hospice patient, it is also good to document what
